

Frontend Developer Angular (f/m/d)

At LeanIX we build products for more than 300 enterprise customers all over the world. And as our customer base continues to grow rapidly, we are investing heavily into the development of those products. The user interface and the overall user experience are very important in that, as the customer satisfaction is among our most important company metrics.

In order to cope with the growth of the customer base and the product we need to scale our engineering teams. So in the frontend area we are looking for passionate and creative developers with experience in interactive and responsive web frontends, who are not just motivated to work on highly appealing user interfaces, but are also attracted to the challenge of scaling frontend development in such a way that allows multiple teams to work efficiently.

WHAT IS WAITING FOR YOU?

- A product that demands a high quality frontend
- Designing and building highly appealing user interfaces
- Continuously extending and improving our web frontends using Angular
- Highly motivated and experienced colleagues that enjoy working as a team
- State of the art technologies in frontend and backend
- Test-driven development and continuous integration
- The challenge to scale frontend development to a multi-team setup

WHAT IS OUR STACK?

- Latest Angular
- GraphQL
- Typescript
- RxJS
- Jest and Protractor
- Microservices built with Java, Postgres and Elasticsearch
- Docker and Kubernetes

WHAT ARE WE LOOKING FOR?

- B.S. or M.S. in Computer Science, Media or other technical subject
- 3+ years experience as frontend developer (1+ year with Angular, React etc.)
- Experience and great interest in User Interaction Design / UX / design patterns
- Hands-on approach, enjoying an agile software development process
- Experience with continuous integration & automation process
- A true team player who likes to contribute and benefit of working with others
- Someone who likes to take ownership and drive topics forward
- Strong verbal / written communication skills in English (German is a plus)
